

Transaction Satisfaction

The Most Affordable Full-Featured Cloud POS Ever!

Business Made Better

The uAccept MB3000 Point of Sale System offers businesses a complete POS at a fraction of the cost of other systems. With uncompromising quality and enterprise class functionality, this is the last POS system they will ever need to buy.

- Easily accept credit cards, cash, checks, and bitcoin
- Track and manage inventory; when a product is sold your inventory updates instantly
- Set alerts to notify you when products reach low inventory levels
- Receive and respond to customer text message orders and inquiries directly from the POS
- Text and email customers their receipts
- Enable the FREE customer loyalty program to reward customers for their purchases
- Manage store credit and layaway programs
- Print shift, daily, and journal reports from the POS and the cloud
- Create custom product menus and schedule when they will display on the POS - perfect for "happy hour" or breakfast / lunch / dinner menu changes
- Personalize receipts to include logo, custom messages, and social media handles
- Compatible with external EMV (Chip and PIN) reader
- Use the POS with no Internet connection

Capacitive 9.7" Touch Screen

3" Internal Printer

5 Bill Cash Drawer

Encrypted Magnetic Card Reader

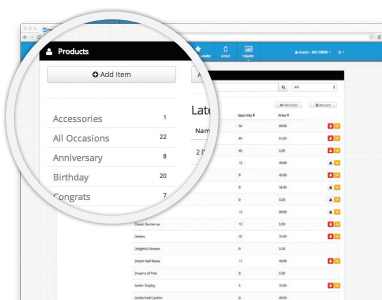

Customer Facing Display

Plug 'n Play Internet (LAN) Connection

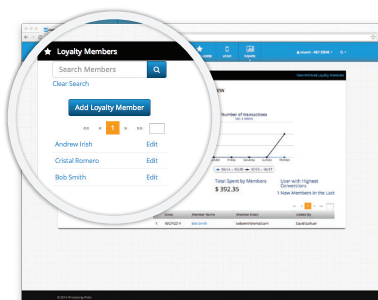

Always On Always Available

The powerful cloud software allows you to access real-time business data from any internet connected device. With unlimited and secure data storage in the cloud for the life of your account, you can work when and where you want.

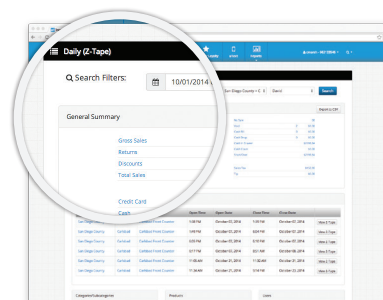

- Access business analytics quickly from your cloud connected uAccept portal dashboard
- View real-time sales, inventory, and customer reports
- Send sales data directly to QuickBooks® Desktop or QuickBooks® Online
- Track loyalty member sales, trends, and transactions to get to know your top customers
- Create product categories to group your products any way you choose
- Manage user permissions on the POS and in the cloud to maintain complete control over the security of your data
- Add unlimited tax rules, special fees, and discounts for the products you sell
- Upload custom icons or use photos for your products
